

Specialized system for organic solvents

Alpha 3-4 LSCbasic

Product highlights

Special system Alpha 3-4 LSCbasic

4 kg

-105 °C

- ▶ **Coated real-glass chamber**
borosilicate glass for higher safety
- ▶ **Flow tube**
for optimum vapour flow
- ▶ **Deep-seated ice condenser**
to improve performance

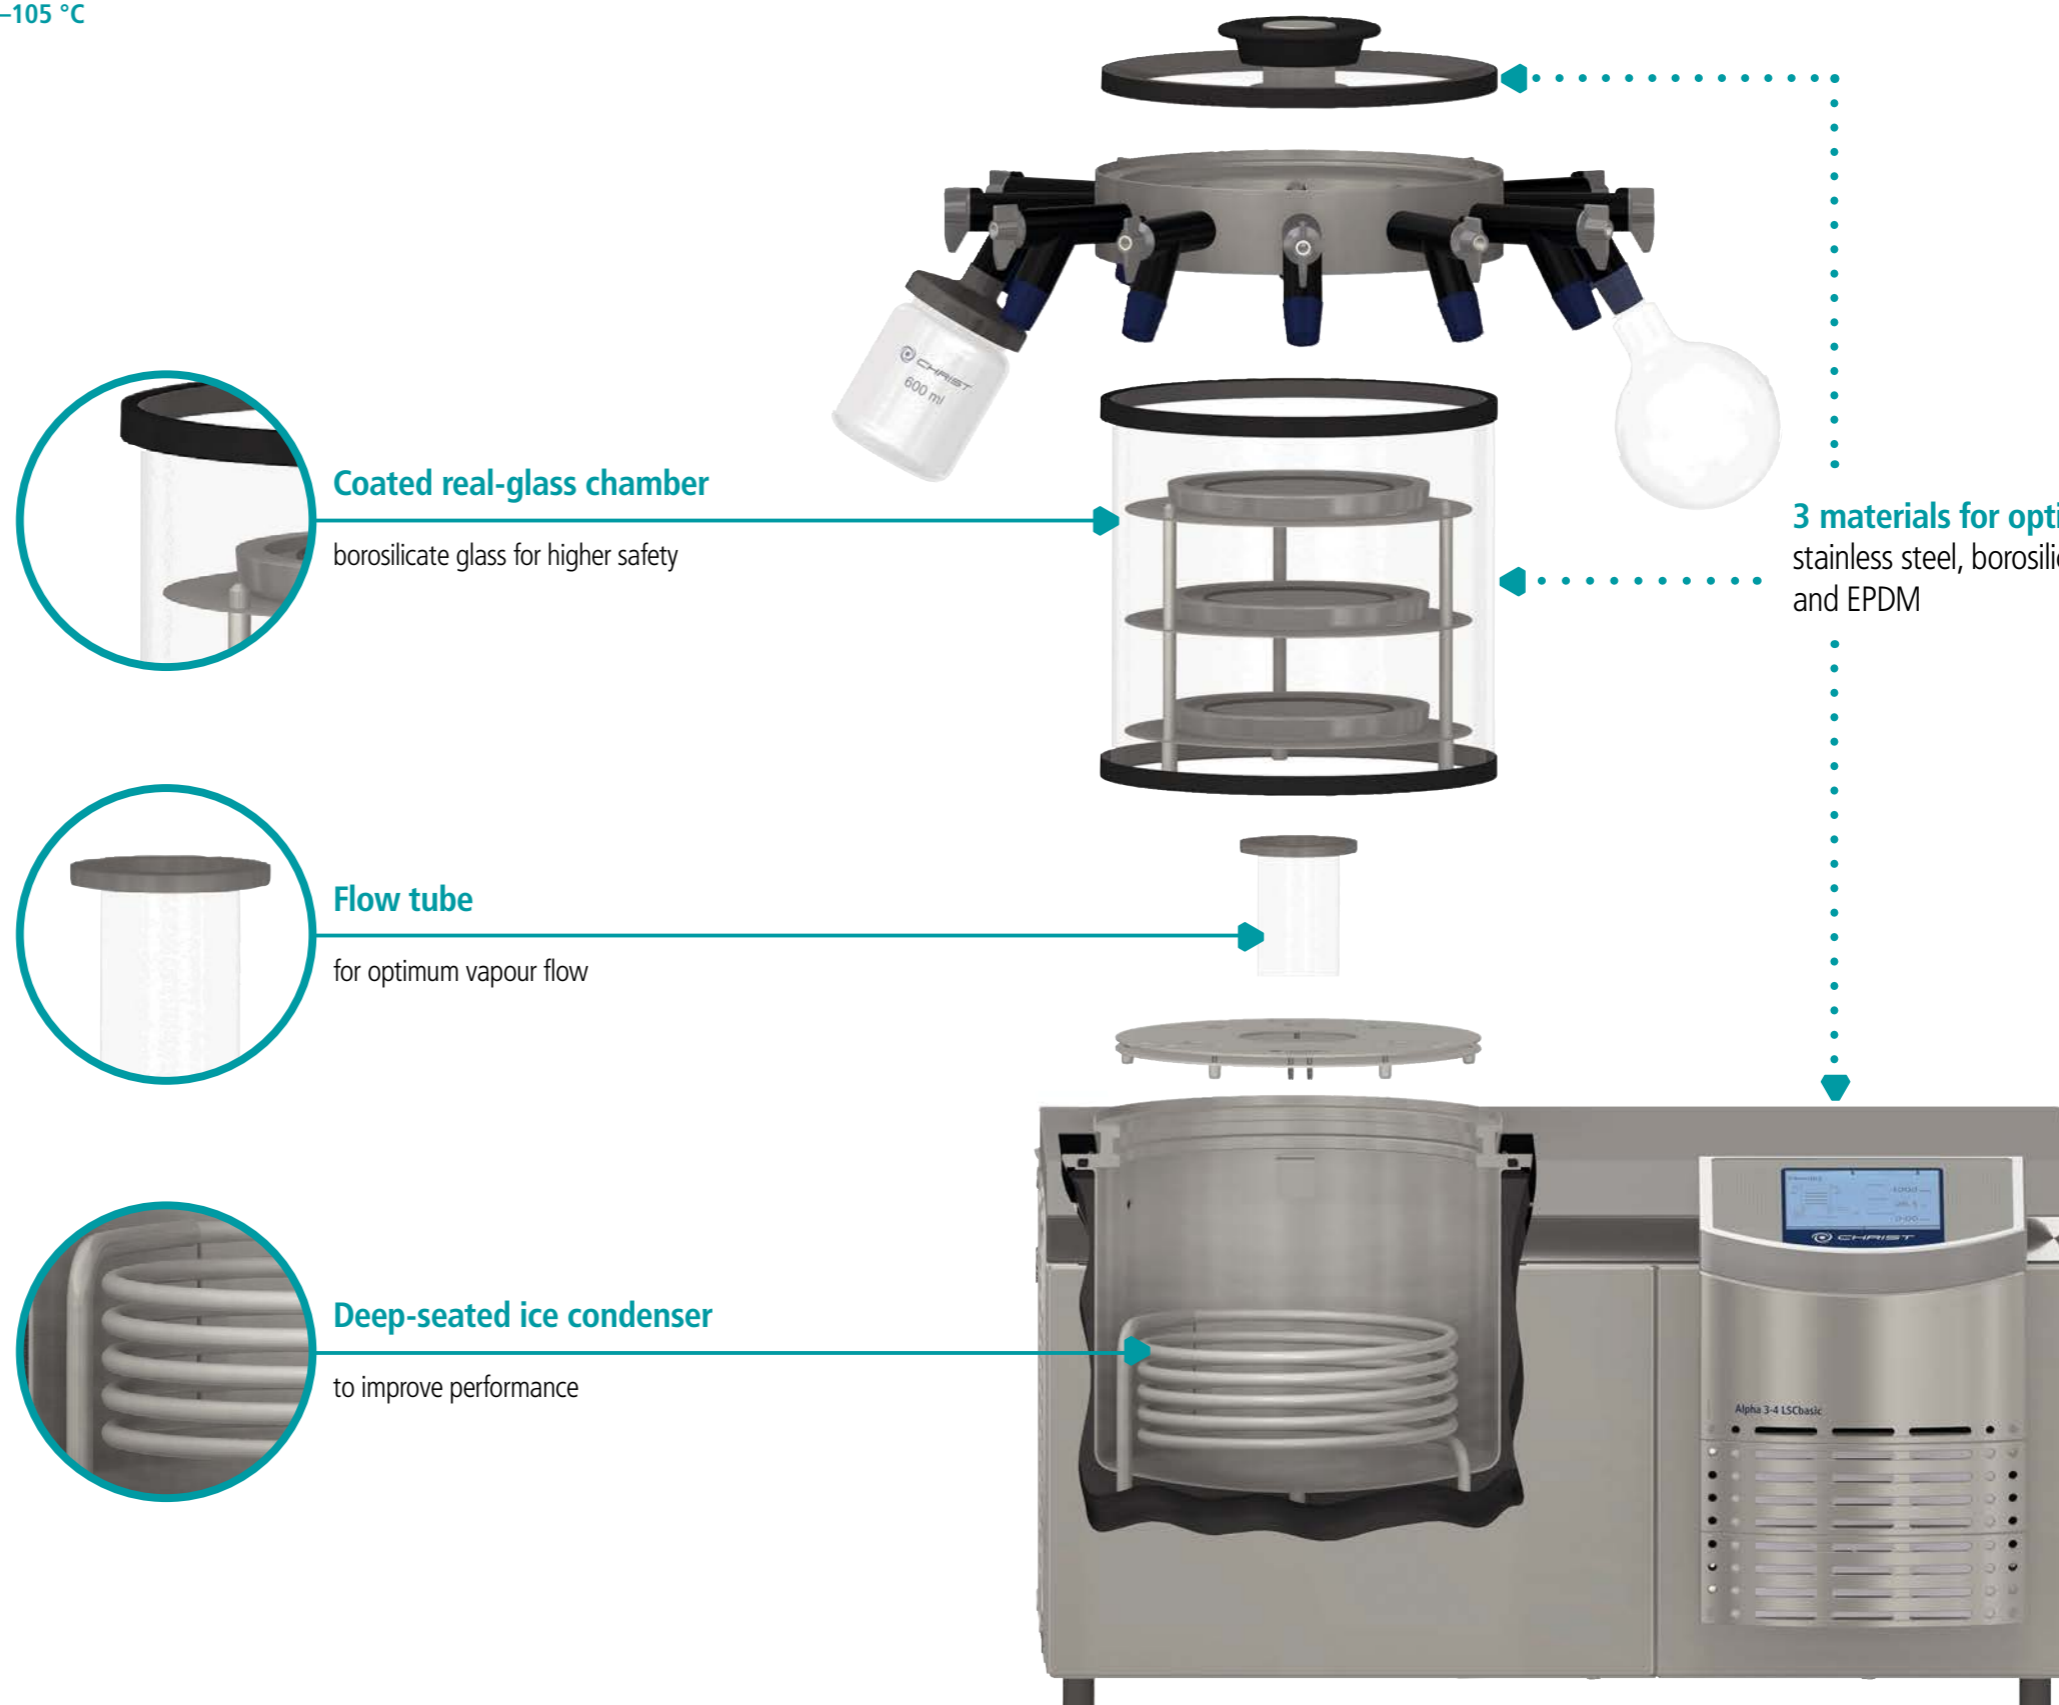

Higher safety for the freeze drying of organic, solvent-containing samples

- Unique system set-up especially for organic solvents
- Flexible use for a wide range of different applications with organic solvents thanks to two fixed packages
- Ice condenser temperature of -105°C with natural refrigerants
- Particularly easy operation with the LSCbasic control system
- Capacitive vacuum sensor
- Controlled vacuum and solvent-resistant vacuum pump
- EPDM seal suitable for solvents
- Integrated valve for inertisation

Fixed configurations
